ARMOR-STEP® PUNCTURE RESISTANT ANTI-FATIGUE INSOLES

- Stainless steel plate provides protection against puncture wounds to the feet caused by sharp objects such as nails, scrap metal, iron shards and rocks
- Meets minimum force resistance of 270 lbs. as specified in ASTM F2412-18/F2413-17
- Transforms low-cost boots and shoes into orthotically comfortable, puncture resistant footwear for a fraction of the cost associated with high-end work boots
- Hypo-allergenic fabric cover wicks away moisture
- Lightweight and flexible for continuous wear
- Helps decrease worker lost time, injury compensation and insurance premiums
- The Armor-Step® Orthotic Support System consists of heel cup, longitudinal arch support and metatarsal support for improved foot stability
- Helps align the skeletal structure to reduce pain and fatigue in the feet, legs and lower back, increases shock absorption, and aids in the reduction of joint trauma
